

# New Training facility opens in Long Island

This month saw the inauguration of All Dent's new, state of the art training facility in Long Island, New York. The facility has an ultra-modern lab and a learning centre.

The learning centre is fully equipped for technical and dental courses, with 28 hands on stations, and 60 seats for lecture. On each bench there are computer monitors with access to wireless internet, and a large viewable screen for lectures in the front of the classroom. There is also a fully equipped room where live surgical procedures can take place.

The first lecture to be held at the facility was a two day rigorous Advanced Endodontics course for the New York State Academy of General Dentistry, presented by Dr. Jarshen Lin and Dr. Mark Pitel.

Says Steve Romani, owner of All Dent Ceramic 'The course went just as planned. There were 23 attendees, and the feedback has been very positive; delegates will return in two months for further presentations.'

Various shows and courses will be hosted at the facility, such as occlusion courses with Dawson, Endo courses with ADA, Biolayer courses, and Porcelain courses.

Dates have not yet been set, but keep an eye on the agenda for further information.

Interested parties can receive more information on the centre and reserve the facility for courses by calling Lety Algeri on 631-806-9259, emailing [lety@all-dent.com](mailto:lety@all-dent.com) or visiting [www.all-dent.com](http://www.all-dent.com)
